## Commander's Report

We have successfully finished our 2011 fall/winter courses and our 2012 winter spring courses; and are currently planning our next fall/winter classes and winter/spring classes. We will be putting out a full schedule for next year listing all courses. By the end of June we should have next years calendar complete. Stay tuned.

I have been exceptionally busy working with our instructor Bill Hawryluk training new instructors and proctors to take on our new challenge. We were approached by Mr. Jack Tang to put together courses, to train Chinese boaters. This has taken a lot of work and planning involving our Bridge and especially Bob Everson our web master.

Go to our web page you will notice the British flag and the Chinese flag, click on the Chinese flag. You will see the content convert to Chinese. The Chinese content is being managed by Jack Tang. He has a passion for boating and a desire to help his fellow countryman. We have courses running through June to get fifty Chinese trained for the PCOC. These students have all indicated that they will take the Boating Essentials this fall.

It is time to get your boats ready for another boating season. Hope to see you on the water, or at one of our cruises.
